

Homework without tears: a 4-step routine

the 4 steps

- 1. Setup (3 minutes). Open Wobble. Choose font, tint, ruler. Get a snack and a glass of water.
- 2. Read (10 minutes). Use Photo mode for any printed worksheet. Let Wobble read it once, then your child reads it once.
- 3. Tap (5 minutes). Tap any word that felt slippery. Talk about one of them.
- 4. Stop (2 minutes). Always stop before frustration. Mark the page. Tomorrow is fine.

if it goes wrong

- Tears in the first 5 minutes? The text is too hard. Read it together first, no Wobble, just you.
- Refusal to start? Try a different mode. Books mode with character voices feels less like work.
- Distraction? Turn the Reading ruler ON. The dim background helps surprisingly fast.

a note on practice

Wobble is a scaffold, not a shortcut. Your child still reads. The voice, the focus line, and the definitions are there so the words stop wobbling long enough to land.
